

From: Dave Hollis, LaVision UK

Subject: Seminar on PIV

LaVision UK are running a **PIV Seminar** taking place in **Edinburgh, 29-31 January 2019**. The Seminar is going to be hosted by the **Fluid Dynamics Lab** of Edinburgh University, and its aim is to offer a comprehensive introduction to the principles of Particle Image Velocimetry measurements and the DaVis software platform. The seminar will also include application examples presented by LaVision Engineers and invited speakers. The lectures offered over the course of the three-day seminar are complemented by hands-on lab sessions on imaging, hardware control and the 2D- and Stereo-PIV tools of the DaVis software.

You can download the program for the DaVis PIV course [here](#). If you wish to attend please complete the [registration form](#) before **31 December**. A list of hotels and directions will be sent to you after registration. Please feel free to contact us for any questions by e-mail: sales@lvisionuk.com or by phone: +44-(0)-870-9976532.
