

# UK Fluids Network dissertation prize 2022

Rev. 23/2/2022

The UKFN invites nominations for the best Fluid Dynamics-themed doctoral thesis from 2021. The winner will receive a prize of £500.

## 1. Eligibility

An eligible dissertation should be on fluids-related research undertaken at a UK university for a doctoral degree, and examined between 1 January 2021 and 31 December 2021. It should not have been nominated in a previous UKFN thesis competition.

## 2. Nomination and selection process

A thesis is nominated for the prize by one of the thesis examiners, using the template given below. The examiner should explain in around 300 words why they think it is an outstanding dissertation. This citation can be based on the examiners' reports. The examiner should also include a second citation, of similar length, from the other examiner.

Nominations should be sent to [competition@fluids.ac.uk](mailto:competition@fluids.ac.uk) by **30 April 2022**.

The nominations will be evaluated by a panel composed of members of the UKFN Executive Committee, and the winner will be announced by 31 May 2022.

## 3. Nomination template

Please provide the following details for the thesis you wish to nominate.

Please note that, as far as is possible, the theses will be judged blind. The judges will read the theses without knowing the name or institution of the nominee. Nominators/seconders are therefore asked to use 'the candidate', 'their institution' and the impersonal 'they' when referring to the nominee in their citation.

### Thesis

Title of thesis:

Date of examination:

URL of thesis online:

Keywords (max 5):

### Nominee (author)

Name:

Affiliation (institution and department):

### Nominator (one examiner)

Name:

Affiliation (institution and department):

Citation: Say in around 300-500 words why the thesis is outstanding, focusing particularly on

- Originality
- Contribution to the subject area
- Breadth of knowledge
- Elegance of presentation

### Secunder (other examiner)

Use same headings as those under 'Nominator'.

If the thesis is confidential, the nominator should check that the judges have permission to read the thesis, and include a statement to that effect.
