

**From:** Noémi Thomazo, ELVESYS, 2/7/19

**Subject:** Industrial Post-doc position

ELVESYS is a French SME dedicated to microfluidics. We are currently looking for researchers (mostly physicists) to apply with us for the [MSCA-IF grant](#). The grant specifically aims at financing innovative research projects with an emphasis on enhancing career perspectives of the candidates. Specifically, this funding will result in a **2-year post-doctoral appointment** in our headquarters in Paris, where the selected candidate will conduct innovative research related to **microfluidics** and receive training in **business and entrepreneurship**.
